

Parking and access to the Parc Mine level 2 portal

Please park cars in the Hafna Car park and then walk down to the main road, turn left and cross over the road to take the forestry track which leads past Coed y Fuches-las. Follow the track around until a large circular bat "castle" is seen on the right. Take the rough forestry path past an old building and the adit portal is a few yards further on and up a slope. The OS Grid Ref is SH78675984. Step over the barbed wire fence using the stones in the corner and walk into the cutting to meet the barrier. Carefully slide over the top of this and you are Fucheslas lode and can continue to the principal lode. Take great care when in the principal lode to avoid the holes in the floor – make full use of any safety lines.

Sketch Plan of the location of the Parc level 2 Adit
